Diablo 6.0 Replica

# Diablo 6.0 Reproduction

What you are buying is a Lamborghini Diablo 6.0 Reproduction. This is a hand built car that is powered by a state of the art 320 HP 5.7 liter aluminum block LS1 V8.

This car was built as a show car and has won first in class in nearly every show it was entered in. At it's debut event at the Association of Hand Crafted Automobiles at Knott's Berry Farms car show in 2004, it won best in the nation.

This was the first reproduction that was actually constructed on an exact replica of a Lamborghini chassis. Because the chassis is exact to Lamborghini's design and the body is a a near perfect reproduction, this car is viewed as an original Diablo 6.0. This is a quote from the Lamborghini Dealership in Denver when he saw a picture of the car at Knott's. "HOLY COW THAT IS BETTER LOOKING BETTER THAN THE REAL THING "

This vehicle is in pristine shape and has less than 800 miles on the car. It is licensed and registered in the State of Texas.

Dale Van Blokland is the builder and is well known in the industry. You may visit the web site [www.Lambobuilder.com](http://www.Lambobuilder.com) to see his work.

*The Black and Gold 6.0s are current listings in a National publication. The Black car has 6900 miles and no wing. The Gold car has 6300 miles and a full transmission rebuild. Fresh Engine out service just completed. This is with 6300 miles!*

*If you are a collector of authentic vehicles, then this may not be the vehicle for you. However if you want the look of an authentic vehicle and would like to be able to actually drive it and enjoy it then this vehicle may be your solution.*

*The number of completed cars that have been built with a reliable V8 on the replica chassis is very limited. This is a top of the line vehicle that will be a joy for the new owner.*

**Price:** \$89,000

**Summary:**

*This car is considered by some to be one of the finest reproductions ever built. It is an award winning car built by one of the most respected builders in the industry.*

*Because Lamborghini has essentially shut down all manufactures of replicas, a build of this caliber will be increasingly hard to find*

*The car comes with a custom car cover as well as floor mats with the Red Diablo Bull.*

*There are over 2000 pictures of the car during the build stage and at various car shows. To see some of these pictures, please click [here](#) and select the links at the top of the page*

*The car has a valid Texas registration and clear title and is currently located in Toronto Canada. The car can be picked up in Canada or it can be brought to Buffalo, NY for pickup.*
